Dear Swapnil Sir,

As discussed last time, GoPrac is a Bangalore based interview preparation platform founded by IISc and IIT graduates, who currently serve Engineering and MBA colleges spread across India.

Your college placement season is going to start soon and we would like to help you achieve a higher placement percentage by discover the employability status of each student of your college in advance.

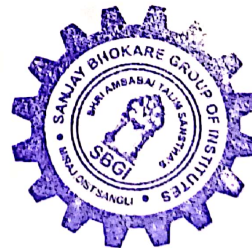

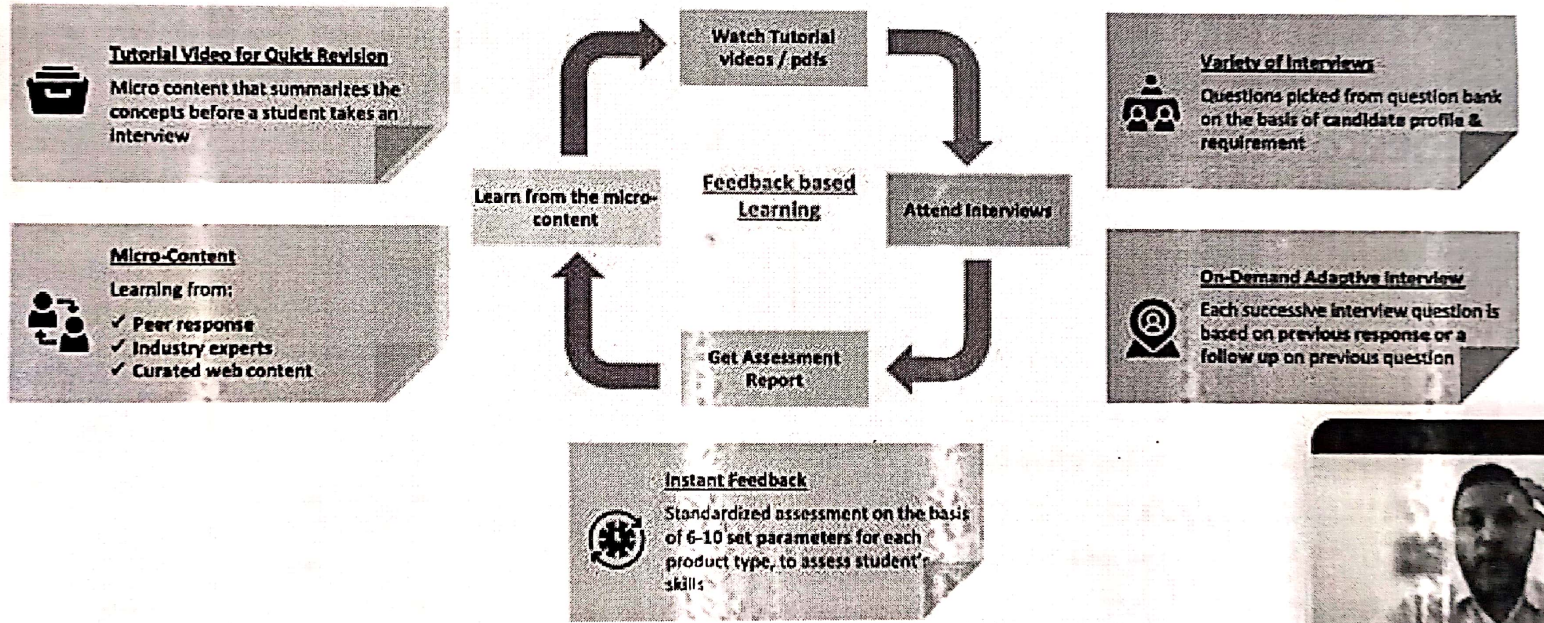

Employability status report, prepared by industry professionals, provides the interview readiness of your students across sectors like IT Product and Core Engineering. I would highly recommend you to conduct an employability test for your students for the following benefits

1. Predict your 2023 batch placement percentage today and reduce your recruitment efforts
2. Identify students who need interview preparation
3. Design personalised training modules for each student based on their skill gaps

Please find attached the sample employability status report of a college and sample individual student feedback report for your consideration

HOW ARE SKILLS BUILT ON GoPrac?

WHY COLLEGES COLLABORATE WITH GoPrac ?

Students

-  Structured and personalized practice
-  Identifying areas of improvement
-  Benchmarking of skills

Colleges

-  Customization based on target companies/sector
-  Identifying training needs as per industry requirements
-  Improving placements
