# Institutional Distinctiveness

The institute, is located on Sangli-Miraj road. It is becoming a favorite destination for quality education for students. Institute have 6 streams under one roof including UG and PG. Mechanical, Civil, Electrical, Electronics and Tele communication, Computer are included in UG and Master of Business Administration included in PG. Institute is a representative of Ambabai Talim Sanstha, believed to be dedicated to the institution's vision of *Becoming a reputed technological and management institute that offers high quality education and promotes the development of core human values in honest, humble, human beings*.

With a distinct focus on **Outcome Based Education (OBE),** Experiential and Student Centric Learning, the institute places a specific emphasis on fostering strong relationships between students and teachers. The institute implements a path to continuously improve vision of the institute's teaching excellence by "Academic monitor through Fortnight Report" and CO-PO attainment level has been verified for each course and programme. For outcome-based education, each stream presents a 15 days fortnight report to the IQAC. It includes the curricular and extra-curricular activities. In curricular syllabus completion, Guest lecture, invited lecture, Industrial and field visit, ADD ON/ Certificate/ Value added courses are included. In extracurricular activities, sports, SOUHARD, EMPIR, various days celebrations in the institute are included. The institution has made a significant effort to promote Core human values, which has led to honest, humble, human beings.

Through mentorship, the institution has placed a high priority on closely monitoring the students. A well-360-degree education that permits competition and societal contribution is provided by extra classes for deep learning, career guidance, institutional scholarship, parent-teacher meet, alumni gatherings, and extension programmes.

To ensure that the students get outstanding knowledge in the COVID pandemic situation is a major challenge for the entire teaching staff. The institute used the greatest online teaching methodology to solve this difficulty. Webex, Zoom, and Google Meet are utilized as teaching platforms. Practical knowledge is connected to theoretical knowledge through National Programme on Technology Enhanced Learning (NPTEL) Videos' Virtual Lab. In addition,
